Mr. Tim Rehder  
RFCA Project Manager  
United States Environmental Protection Agency  
999 18<sup>th</sup> Street, Suite 500  
Denver, Colorado 80202-2466

Dear Mr. Gunderson and Mr. Rehder

Enclosed is the Rocky Flats Cleanup Agreement (RFCA) Implementation Quarterly Status Report for the First Quarter Fiscal Year 2000. Notable achievements during this quarter included the demolition of the first major plutonium building at the Rocky Flats Environmental Technology Site, Building 779, progress by the Actinide Migration Evaluation Group, and submittal to the Colorado Department of Public Health and Environment and the Environmental Protection Agency (EPA) of the Industrial Area Characterization and Remediation Strategy. Also, the RFCA parties agreed to pursue a proposal for the EPA to assume responsibility for 903 Pad remediation.

Please provide your comments to me by mid-February so we can finalize the document and distribute it to the stakeholders by the end of the month.

If you have any questions or comments, please contact me at (303) 966-5918 or Glenn Doyle at (303) 966-3087.

Sincerely,

Joseph A. Legare  
Assistant Manager  
for Environment and Infrastructure
